

# THE WHOLE PROGRAMME, ON ONE PAGE.

Every stream, every rule, every cap. Rates as stated by Spartan OS on 7 and 14 September 2026; rank reference ranges supplied 16 September. Rates float, caps are fixed in USDT at entry.

STAKING · PAID EVERY TWELVE HOURS

Capped in dollars, principal daily

|                               |                          |
|-------------------------------|--------------------------|
| Flexible · from \$1 · no lock | 0.6% a day               |
| 180 days · from \$1           | 1.1% · cap 4×            |
| 360 days · from \$1           | 1.2% · cap 4.5×          |
| 540 days · from \$1           | 1.3% · cap 5×            |
| On \$1,000, a day             | \$6 · \$11 · \$12 · \$13 |

Caps are fixed in USDT at entry, principal included; at the cap the position is complete. Principal back daily. Interest compounds; extra rewards do not.

BONDS · A SEPARATE PRODUCT

Cheaper entry, own cap

THE TURBINE

Every payout is also a purchase

All ROI is claimed into the turbine. You buy the same amount of RM on the DEX, wait 24 hours, and both are yours.

SELL TAX · REASSESSED EVERY THREE HOURS

|                               |                 |
|-------------------------------|-----------------|
| Buying · base on every sale   | 0% · 5%         |
| Price down over 5% vs average | 8-13%           |
| Down 8-15% · 15% or more      | 13-20% · 20-30% |
| Extra tax: burned · pool      | 65% · 35%       |

O<sup>2</sup> · BALANCE FIRST, PRICE SECOND

What it can and cannot do

Reads TWAP, volumes and liquidity depth every three hours; slows cascades and protects the pool. The incentive pool pays holders with \$200 or more in a 360 or 540-day position. It does not set the price.
