TEN THEMES

01	The god of the chain	10 pieces	Anubis as the guardian. Keys, scales, the ledger, the mask. The pieces that carry the brand on their own.
02	Privacy layer	9 pieces	The chain's claim, drawn: sealed scrolls, the eye that reveals nothing, the vault, cold storage. No yield, no numbers.
03	Sparta	9 pieces	Spartan OS pieces. Helmet, shield wall, the bear-market survivor. The system on the chain.
04	To the moon	9 pieces	The oldest crypto joke, done in gold and lime: flags, rockets, a pyramid on the moon, a balloon with a jackal's face.
05	Bull and bear	9 pieces	Cycle pieces. The bull in Egyptian gold, the bear in lime chains, candlesticks in the desert, the roller coaster.
06	Memes and jokes	13 pieces	gm, wagmi, few understand, wen lambo, gas fees, touch grass, ser. Industry humour for the hall, drawn properly.
07	Egypt, modern	8 pieces	Cartouches, scarabs, the sphinx, Bastet, the obelisk, a papyrus roadmap. Egypt as the house style.
08	Characters	9 pieces	The jackal as hacker, DJ, skater, samurai, king; the pharaoh in headphones; the Spartan barista.
09	Singapore	4 pieces	TOKEN2049 pieces. The bay, the ticket, the orchid. Dated so they become the record of the trip.
10	Type	20 pieces	Twenty typographic pieces: badges, stacks, rings, mono and varsity. No illustration, the words and the marks only.

Every piece is one print on a black or bone garment. The illustrations were generated to one brief (obsidian ground, gold, lime light, engraved line) and finished with the two official marks and Cinzel type. Print sizes and files are in SPEC.txt and catalogue.csv.
